**BLM GMT-1 EIS**

BLM expects to receive PFEIS from contractor on August 15. Will include seasonal drilling alternative (D2) although economic analysis has determined that the alternative is not economically viable. BLM will identify a preferred alternative in the FEIS. Cooperators will have 3 weeks to review and comment.

**FHW Juneau Access EIS**

Notice of Availability for the DSEIS expected to be published in the next 3-4 weeks. FHWA anticipates a 45-day review period. Applicability of recent ruling of Roadless Rule to project is being debated within USFS.
